

Billing Plan — Employer Medical Booking & Report Portal

Prepared for: Osungade Babatunde **Prepared by:** Ola **Date:** 2026 **Document Version:** 1.0

1. Billing Overview & Recommended Approach

Recommended Model: Fixed-Price MVP with Post-MVP Retainer

Given:

- The project has a clearly defined MVP scope (4 phases, documented deliverables)
- The client benefits from cost certainty
- The 8–12 week timeline is well-constrained
- Post-MVP support is anticipated

The recommended commercial approach is:

- **Phase 1 (MVP delivery):** Fixed-price engagement
- **Post-MVP:** Monthly retainer for ongoing support, maintenance, and enhancements

This gives the client full budget visibility upfront and protects the developer from open-ended creep during the MVP window.

2. Fixed-Price MVP Proposal

Project: Employer Medical Booking & Report Portal — MVP

Scope Basis: As defined in the Detailed Internal Document and Client Proposal, covering Phases 1–4:

- Employer login & secure access
 - Employee management & medical request creation
 - Appointment booking workflow
 - Status tracking (Booked / Attended / Report Ready)
 - Clinic upload/release of reports
 - Employer report download
 - Participant questionnaires & consent forms (mobile-friendly)
 - Role-based access control (Employer, Participant, Clinic)
 - Encrypted secure document storage
 - Integration-ready backend (architecture for Best Practice, no live sync in MVP)
-

Option A — Competitive Fixed Price (Recommended)

Component	Detail	Price (ex-GST)
Phase 1: Discovery & Setup	Requirements confirmation, architecture, environment, auth config, DB design	\$5,500
Phase 2: Core Portal Development	Employer portal, participant forms, clinic dashboard, workflow engine	\$12,000
Phase 3: Booking & Reports	Appointment workflow, report upload/release, secure doc access	\$9,000
Phase 4: Testing & Deployment	Functional testing, bug fixes, production deployment, and handover docs	\$5,000
Total MVP (ex-GST)		\$31,500
GST (10%)		\$3,150
Total MVP (inc-GST)		\$34,650

Option B — Standard Market Rate Fixed Price

Component	Detail	Price (ex-GST)
Phase 1: Discovery & Setup	Requirements confirmation, architecture, environment, auth config, DB design	\$7,500
Phase 2: Core Portal Development	Employer portal, participant forms, clinic dashboard, workflow engine	\$16,500
Phase 3: Booking & Reports	Appointment workflow, report upload/release, secure doc access	\$12,000
Phase 4: Testing & Deployment	Functional testing, bug fixes, production deployment, and handover docs	\$6,500
Total MVP (ex-GST)		\$42,500

Component	Detail	Price (ex-GST)
GST (10%)		\$4,250
Total MVP (inc-GST)		\$46,750

6. Post-MVP Retainer & Support Plans

Once the MVP is delivered, the following ongoing support tiers are offered. All prices are in **AUD ex-GST**.

Tier 1 — Essentials (Light Touch)

\$1,500/month + GST

Included	Detail
Hours	8 hours/month
Security & dependency updates	Monthly patch review
Bug fixes	Minor bugs (< 1 hour each)
Uptime monitoring	Automated alerts, response next business day
Response SLA	24 hours (business days)
Overage	\$150/hr for hours beyond the monthly allocation
Minimum term	3 months

Best for: A stable post-launch product with low change frequency. Good starting point if the client is cautious about ongoing costs.

Tier 2 — Active Support (Recommended) ★

\$2,500/month + GST

Included	Detail
Hours	15 hours/month
Security & dependency updates	Monthly patch review

Included	Detail
Bug fixes	Minor & moderate bugs
Feature tweaks	Small enhancements within the scope of existing modules
Uptime monitoring	Automated alerts, same-day response for critical issues
Response SLA	4 hours (critical) / 24 hours (non-critical), business days
Monthly check-in	30-minute review call with client
Overage	\$150/hr for hours beyond the monthly allocation
Minimum term	3 months

Best for: An active portal with regular user activity, where bugs and small changes are expected in the first 3–6 months post-launch.

Tier 3 — Growth Partnership

\$4,500/month + GST

Included	Detail
Hours	28 hours/month
All Tier 2 inclusions	Plus expanded development capacity
New feature development	Small features and workflow enhancements
Best Practice integration scoping	Work toward phased integration with Best Practice
Priority scheduling	First-in-queue for new work requests
Bi-weekly check-in	45-minute product roadmap review call
Response SLA	2 hours (critical) / 8 hours (non-critical), business days
Overage	\$145/hr (discounted) for hours beyond the monthly allocation

Included	Detail
Minimum term	3 months

Best for: Clients who want to actively develop the product beyond MVP — adding analytics, billing, deeper clinical integration, or new user roles over time.

Add-On: Best Practice Integration (Post-MVP)

When the client is ready to pursue live integration with Best Practice, this will be scoped as a **separate fixed-price or T&M engagement**, depending on API availability and agreed integration depth.

Estimated market range for integration work: **\$8,000 – \$22,000 ex-GST** (to be confirmed during discovery).
